**NOTE:** Adjustments from 2nd Quarter are reflected in totals.

**Project Objectives:** The Police Technical Assistance Program (PTAP) is responsible for the following:

1. To provide a clearinghouse for law enforcement agencies to access information on advancements being made in the crash records field.
2. To showcase NJDOT methodologies, research, and technology initiatives in crash records systems.
3. To offer technical assistance to Local police departments.
4. To support the NJDOT's goal of reaching local government agencies through CAIT-LTAP technology transfer activities.

**Project Abstract:** There is a need for the FHWA vital few strategic goals to be introduced to local government through training outreach and distribution of resources. Accurate reporting, processing, and maintaining of crash data is a priority for NJDOT to develop effective solutions to traffic safety problems. Staff members of the NJ LTAP program will serve as representatives to the Safety Management Task Force and the Statewide Traffic Records Coordinating Committee (STRCC). Additionally, the LTAP staff members will facilitate quarterly local task force meetings for representatives from local law enforcement associations. The outcome of this program is to increase the accuracy of crash reports that are submitted to the NJDOT for inclusion in the statewide Crash Records Database.
